

ExoGenesis

huC-MSCs Exosome

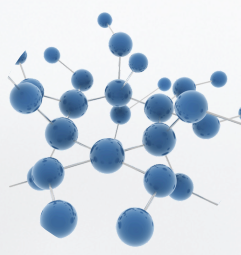

Clinical Effective & Safe - Extra Strength for Scalp

Human Exosome Therapy

10B + 9Pep

80K Automized Activators

Advanced Cellular Therapy for Scalp Rejuvenation

Our proprietary extraction process utilizes advanced technology to isolate and concentrate high-purity hUC-MSC-derived exosomes, ensuring a potent and effective formulation.

Each treatment contains 10 Billion high-purity exosomes, carefully concentrated to deliver potent and effective results for optimal scalp health and hair growth

Why Exogenesis

CLINICALLY TESTED

ADVANCED RESEARCH

EXCELLENT REJUVENATION

Manufacturer: Vesco Science Co., Ltd. 3rd floor, Newtech Plaza, 214-9 Seongbong-ro, Seongnam-si, Gyeonggi-do South Korea

GMPC certified workshops and CNAS certified laboratories can provide multi-dimensional testing such as physical and chemical tests and cell experiments to ensure product quality.

How to use

Mix the 2nd agent liquid solution in the 1st freeze dry powder.

After completely dissolving the 1st agent freeze dry powder, leave it still for up to 3-5 minutes to remove air bubbles before using it.

Use mixture dissolved freeze dry powder within a maximum of 3 hours to ensure the stability of product.

SUBJECT OF ADVICE

ExoGenesis™ SCALP KIT

is recommended to be used at least 3 times, on average 5 time.

ExoGenesis™ SCALP KIT

1 set mixed with 1st and 2nd agent is used once per person.

use once get room temperature

Allow the product to reach normal body temperature (around 36-37°C or 98-99°F) before use
